Why does early childhood leadership matter? More importantly, why does it matter who is reflected in these roles and who isn't? The disparity of early care and education administrators of color is rarely addressed and discussed. How does structural inequality outside classrooms and programs makes its way into a nice profession like early care and education? Come engage in critical discourse about the importance and value of disrupting this narrative to achieve desired outcomes for children, families, and the workforce that is culturally responsive and congruent present and future trends.
